

KEN TIMOTHY

www.kendtimothy.com // linkedin.com/in/kendtimothy // github.com/kendtimothy

Software engineer with core skills in .NET web apps development, AWS cloud stack, and UI/UX design.

Highlights about myself:

- 3+ years experience in developing ASP.NET web apps / full stack projects.
- Engineer mindset, most passionate about backend development and problem solving.
- Frontend developer who loves to architect usable and responsive websites.

SKILL SET

Core Development	:	ASP.NET MVC and Web Forms, C#, LINQ, Entity Framework, Web API, Amazon Web Services (AWS): EC2, RDS, S3, Shopify Framework: Liquid and Shopify REST API
Frontend Development	:	HTML5, CSS3, JavaScript/JQuery, AJAX, SCSS/LESS, TypeScript, Bootstrap, GruntJS (runs on Node.js)
Other Languages	:	Java, C, C++, VB.NET
Databases	:	SQL, Microsoft SQL Server, Oracle, MySQL
IDE	:	VS Code and Visual Studio (primary), NetBeans
Currently Learning	:	Unit Testing and TDD, which I have been applying in my recent open source projects on GitHub (@kendtimothy) . I would also love to get started with Big Data and other AWS stacks (e.g. Elastic Search).
Character	:	Teachable and loves to learn. My motto at work is <i>someone who's faithful in small tasks will also be faithful in bigger tasks.</i>

EDUCATION & LATEST ROLE
